

Transition Activity

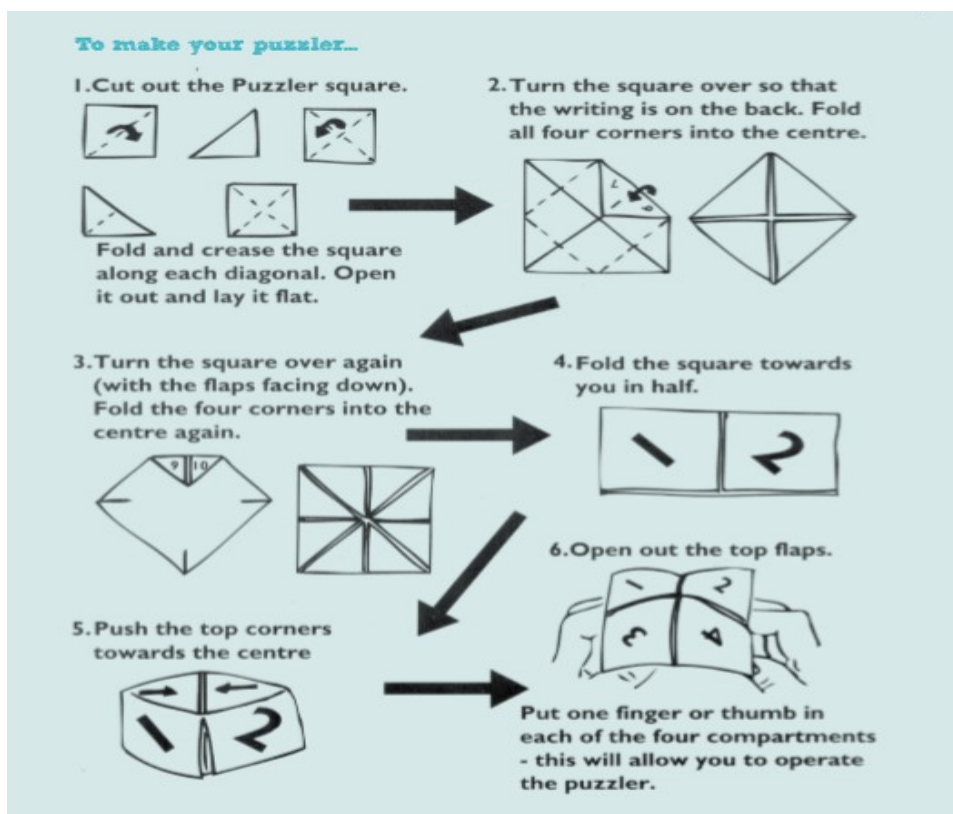

28th May 2020

We know you may feel nervous, worried or anxious about starting at St Maurice's HS. Have you ever asked your parents/guardians how they felt about starting secondary school? Perhaps they experienced some of the same feelings as you.

Your task is to make the 'Fun Game' on the next page and play it with someone in your home. You may want to make your own and ask your own questions.

What was it like when they went to high school? What do they remember? Any surprises?

Instructions:

- Ask your parent/guardian to spell their name. For each letter you hear them say, you manipulate the origami shape back and forth e.g Julie—you would open and close the origami shape 5 times.
- Then ask them to pick a colour. For example, if they pick the colour blue, you would spell out the word blue while opening and closing the origami shape 4 times.
- Finish by asking them to choose a number. Read the question out and see what your parent/guardian says. Enjoy!
