Virtual Classroom

Digital Learning for me!

LEARN HERE

## Learning from home

Welcome to North Lanarkshire's Virtual Classroom!

You know how important it is to learn so that you can be the very best that you can, and sometimes just now that means learning without your teacher in the same room!

If you're not in school, remember you still need to plan time to learn and to complete the tasks set by your school.

Use the guide below to help you get around the NL Virtual Classroom and continue your learning.

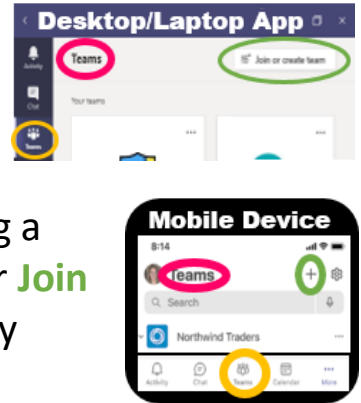

# NL Virtual Classroom Child Guide

## Accessing the NL Virtual Classroom

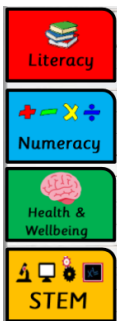

Access the Virtual Classroom through Glow Teams using your Glow Login. Once logged in click on **Teams** on the icon bar. You need to be in **Teams** view, where you can see your Team Tiles. Next you click on **+** or **3 dots** if using a Mobile Device only. Then click on **Create or Join Team** or **Join a team with a code** and enter the Team Code provided by your school.

## NL Virtual Classroom Team Layout

The NL Virtual Classroom has colour coded channels for learning. Your school will tell you which channel to go to access your learning. These channels contain Weekly Interactive Classrooms.

## Interactive Classroom

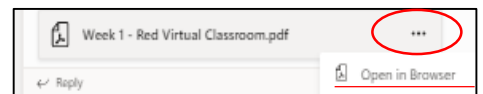

Each Weekly Interactive Classroom will have learning and activities for Literacy, Numeracy, STEM and Health and Wellbeing.

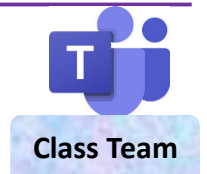

These can be found by clicking on the icons shown on the left within the Interactive Classroom. Have fun exploring your classrooms by clicking on the different icons.

It is best to Open in Browser for the interactive links to work.

## Sharing Completed Work

You can upload completed work to your Class Team for feedback. Your school may give you instructions for doing this.

## Help

If you need any support with Teams or applications you can ask an adult or go to the **Guides Channel** in the Virtual Classroom Team.

## Further Assistance

Please contact your school with any questions or assistance you may need.
