### Home Learning Packs

Dear Parent,

For each stage or Curriculum for Excellence level we have prepared a home learning pack.

Home Learning will be shared via a number of ways

- School App
- Twitter
- School Website
- Microsoft Teams (Accessed via Glow)

Any general resources will be shared via Twitter, our school app (which has a new home learning section) and via our school website. The school website has a page for each class within our school and also a general home learning section.

Teachers will provide the following more specific learning for each class/stage. This will be posted in the classes section of the school website.

- Literacy – there are some online literacy resources your child will be signposted towards, and the teachers will also give some information about phonemes/common words/spelling/grammar which your child could be revising. There are also some ideas for story writing too.
- Numeracy – these will mostly be electronic, in the form of apps and games, along with some activities which can be undertaken too. Most of the apps and games will run on a phone.
- Learning across the Curriculum – the teachers will give a few suggestions for extending and deepening the learning related to your child's topic.
- Science and Health – Miss Meina and Miss Canavan will set some activities related to these areas.

Each class has their own class Microsoft Team set up on Glow. Children can access this via their GLOW accounts. Teachers can use this group to communicate with children and to set learning tasks.

These are suggested activities and are not compulsory. If there is a day-by-day guide provided, this is only a suggestion. We appreciate that this is a difficult and anxious time for many of our families so as with any home learning if your child is finding it stressful or difficult then stop the activity and do something else.

We thank you for all of your help at this time and will endeavour to keep you informed all any developments.

Yours sincerely
