Chain game

How to play for reading

1 player

Shuffle the cards.

Lay all the cards down in front of you, picture side up.*

Turn over any card and read the word.

Find the picture that matches the word.

Now turn this new card over, read the word and find the next matching picture.

Put each card on top of one another in a pile.

Keep going until you pick up the last card.

The last card should match the picture of the card you started with, completing the 'chain'.

Turn the pack over. If it matches then you have read all the words correctly!

If it does not match then you have gone wrong and have to start again.

The game also works if you start with all the cards word side up.

*At a later stage sentence clues are used instead of pictures.

How to play for spelling

Look at the top picture card and write the word it represents.

This activity also helps to improve memory, as the student has to remember the word linked with the clue.

Keep going until you have spelt words for all the cards then turn them over and mark your spelling by looking at the word side.

The student can use any errors to make up their own sentences.
