

Accessing Edmodo

In order for your child to continue their education efficiently, we have created Edmodo classes for the majority of subjects for each year group that will contain class resources such as **textbooks** and **revision materials** as well as a **scheme of work** for your child to follow.

In order for your pupil to access materials and resources, they will need to **create an Edmodo account**. A step by step process on how to create this is outlined below.

Once your child has set up a login, pupils will need to join a class group. This is a generic class set up for each year group. The following example is for the Maths Edmodo class codes:

S1 Maths: vp6k3d

S2 Maths: cwaw2v

S3 Maths: 9xqhxd

Creating an Account

Step 1: Enter www.edmodo.com into your web browser.

Step 2: Click on **Sign up** at the top right hand side of the page and a drop down menu will appear, click **I'm a student**.

Step 3: Enter in your **Full name, class code**, you will also be asked to create a **username** and **password** (Something memorable, can also take note of this somewhere secure, in your school diary).

Step 4: Click **Sign up for FREE**. Once this has been done, your child will be taken to the Edmodo homepage. On the left hand side there is a section called **My Classes** which will show the classes your pupil has joined (Other curricular areas may also have created Edmodo classes). **IF YOUR PUPIL HAS CODES FOR OTHER CLASSES SEE BELOW SO YOUR PUPIL CAN ACCESS THESE ALSO.**

Accessing Other Classes

If your child has class codes for other curricular areas, the following steps should help your child access the classes:

Step 1: On the left hand side of the home page, there is a section called **My Classes**. Click the **Three dots** and a drop down menu will appear, click **Join a Class**.

Step 2: A box will appear allowing your child to type in the desired class code and click Join. The desired class will appear in the **My Classes** section. The box will remain if any other class codes are to be entered. If no other codes are required, click on the **X** icon at the top of the box to bring you back to the main home page.
