What is a Foundation Apprenticeship?

About Foundation Apprenticeships

You will:

- develop industry knowledge and experience
- do industry projects and placements
- take part virtually or in person

You will get:

- a qualification at SCQF Level 6 (same level as a Higher)

How does it work?

A Foundation Apprenticeship:

- takes up to two years
- usually starts in S5
- is a subject choice
- lets you spend time with a learning provider and an employer

What subjects does it cover?

- Accountancy
- Business Skills
- Civil Engineering
- Creative and Digital Media
- Engineering
- Financial Services
- Food and Drink Technologies
- Hardware and System Support
- Scientific Technologies
- Social Services Children and Young People
- Social Services and Healthcare
- Software Development

What are the benefits?

When you do a Foundation Apprenticeship, you can:

- get knowledge, skills and experience
- gain an industry-recognised qualification
- move on to a Modern or Graduate Apprenticeship
- enhance your CV and job applications
- get a qualification recognised by colleges and universities
- build confidence and develop key skills: creativity, problem-solving and communication

What is a Modern Apprenticeship?

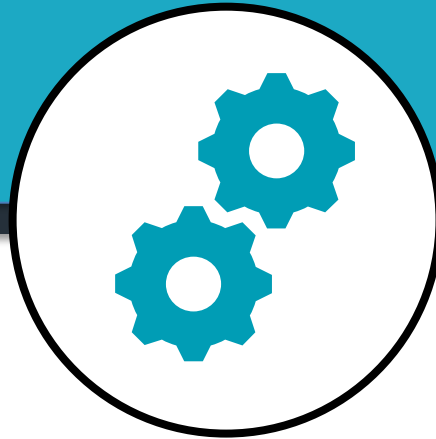

About Modern Apprenticeships

Get a real job with a real employer –
many of Scotland's biggest and best
businesses are involved

About Modern Apprenticeships

Earn while you learn

How does it work?

A Modern Apprenticeship:

- gives hands-on experience with a real employer
- is open to you if you're 16 or over
- offers an SQA qualification

What subjects does it cover?

**Over
100**

**Types
of
apprenticeship**

What are the benefits?

When you do a Modern Apprenticeship, you will:

- get training that is designed for industry and employers
- choose from over 100 Modern Apprenticeships
- learn in a real-world environment
- earn a wage
- gain experience that helps with your CV and job applications
- get your career moving

All about the options

A Modern Apprenticeship opens up opportunities to:

- progress your career
- start a Graduate Apprenticeship
- complete further learning

What is a Graduate Apprenticeship?

About Graduate Apprenticeships

Graduate Apprenticeships are a way to:

- gain qualifications up to Master's degree level
- work and earn a wage
- spend time during your working week with a leading university or college

Get a degree

Achieve a nationally recognised degree,
gain transferable skills that employers
need and earn a wage

How does it work?

- You will be in paid employment while gaining qualifications
- Apprentices are employees – you spend most of your time with the employer
- Open to new and existing employees

What subjects does it cover?

- Accounting
- Business Management
- Civil Engineering
- Construction and the Built Environment
- Cyber Security
- Data Science
- Early Learning and Childcare
- Engineering: Design and Manufacture
- Engineering: Instrumentation, Measurement and Control
- IT: Management for Business
- IT: Software Development

What are the benefits?

When you do a Graduate Apprenticeship, you will:

- get qualified – up to Master's degree level
- gain skills
- earn a wage
- learn skills that matter to employers
- focus on growth industries

It's all about the options

When you complete your Graduate Apprenticeship you could:

- progress to other levels of the GA
- continue further university or college learning
- do further on-the-job training
