

## Literacy

The children have been working hard to develop their word recognition and fluency in reading. Please help your child to read their book every night as this will develop their fluency and confidence further.

They have been learning to write narrative stories independently and will be writing recounts this term.

## Maths

We are working hard to develop our counting skills and we have been counting in 2s, 5s and 10s.

This term we are learning about addition and we will be using different materials, pictures and mental strategies to solve calculations.

We will continue to read write, count and order numbers. Primary 2 will work with numbers to 100 and Primary 3 will work with numbers to 1000.

We did a fantastic job learning about 2D shape last term and we will use our knowledge to help us explore 3D shapes.

We will also be developing our measuring and estimating skills.

## Our Local Area

Thank you to everyone who has uploaded photos of our local area.

We will be looking at how the landscape has been used before focusing on housing. If you are able to, please take photos of different houses in our area for us to look at.

Outdoor PE will continue on a Wednesday. Please ensure your child is dressed appropriately for weather. We will continue to develop our speed, strength and stamina as well as working on our football skills.

## Halloween Fun

Friday 30<sup>th</sup> October

Non Uniform Day - children can come to school dressed down, in a Halloween t-shirt/jumper or in a costume. Children will take part in different Halloween activities within class and they will be provided with juice and a snack. We hope it will be a spooktacular day!
