

# P3 April Newsletter

The children will develop their understanding of the past as they learn about life in the Victorian era.

In Art, the children will learn to use different media to create pictures, developing their skills using chalk, charcoal and pastels.

## Maths and Numeracy

The children will continue to develop their mental agility solving more challenging addition, subtraction, multiplication and division calculations.

They will further develop their estimating and measuring skills as they explore mass and capacity.

They will learn to display and interpret data using charts, graphs and tables.

## Literacy

The children will focus on writing instructions this term. They will be encouraged to add detail to their independent writing and proof read their completed work.

During reading, they will continue to develop their comprehension by discussing texts, answering questions and summarising the main events.

Regular spelling and phoneme practise in school and at home will help develop children's reading and writing skills.

The children thoroughly enjoyed our visit to the library. Please continue to encourage your child to read for enjoyment at home.

The children will extend their French vocabulary as they learn about months/days, weather and food.

The children will learn about the Buddhist festival of Wesak during RME.

Indoor - Wednesday

PE

Outdoor - Thursday

The children are very excited to be working with our Handball coach this term. They will develop their speed, strength and stamina during Fitness sessions outdoor.

The children are looking forward to developing their skills during Food Technology this session.

They will learn about food hygiene, healthy eating and food preparation.

Please refer to the school newsletter for all of this term's important dates.
