

Virtual Classroom How to Join

As part of the ongoing work of the Digital School and to compliment the work being done by teachers across North Lanarkshire. The Digital School has created a Universal offer that all primary schools will be able to access which provides some additional general learning experiences for your children.

Accessing the NL Virtual Classroom

Access the Virtual Classroom through Glow Teams using your Glow Login. Once logged in click on **Teams** on the icon bar. You need to be in **Teams** view, where you can see your Team Tiles. Next you click on **+** or **3 dots** if using a Mobile Device only. Then click on **Create or Join Team** or **Join a team with a code** and enter the Team Code provided by your school.

NL Virtual Classroom Team Layout

The NL Virtual Classroom has colour coded channels for learning. Your school will tell you which channel to go to access your learning. These channels contain Weekly Interactive Classrooms.

The format of the learning has been designed, where possible, for independent learning and experiences which can be accessed in addition to the class learning experiences provided by school staff.

The code to join the The Virtual Classroom Team is: **r0f8wg2**.
The Room you should use is in relation to your child's stage and the colour below.

Channel Colour	Primary/Stage	CfE
Red	Primary 1	Early***
Orange	Primary 2	First*
Yellow	Primary 3	First**
Green	Primary 4	First***
Blue	Primary 5	Second*
Indigo	Primary 6	Second**
Violet	Primary 7	Second***

The virtual classroom contains progressive learning content that your child will be able to complete remotely while at home. Any work that they complete can be shared with their school in the usual way – probably through a class Team, Assignments or OneNote. Your

child's teacher will advise on this. This team is in addition to your child's own individual class team with St Thomas' P.S. The work on this is to enhance and support the lessons created by your child's teacher. These are optional to do.

Weekly Interactive Classrooms

The Interactive Classrooms include learning and experiences for Literacy, Numeracy, Health and Wellbeing and STEM. These are accessed by clicking on the icons shown within the Interactive Classroom.

This is a universal offering however additional learning can be provided by schools out with the Virtual Classroom Team. For example, Spelling which aligns to classroom learning.

It is recommended to Open in Browser for the interactive links to work.
