Why can't we live without books?

We can't live without books because you get lots of information from non fiction books and the internet is not always correct. Technology has not always been around and it is recent so not all of the history on the internet will be correct.

Fiction books are good because when you read some of them you get into the story and when you read them you may feel like you are there or that you have experienced it.

We need books
for the joys
the tears and the thrills.

We need books
To learn to read
and to write.

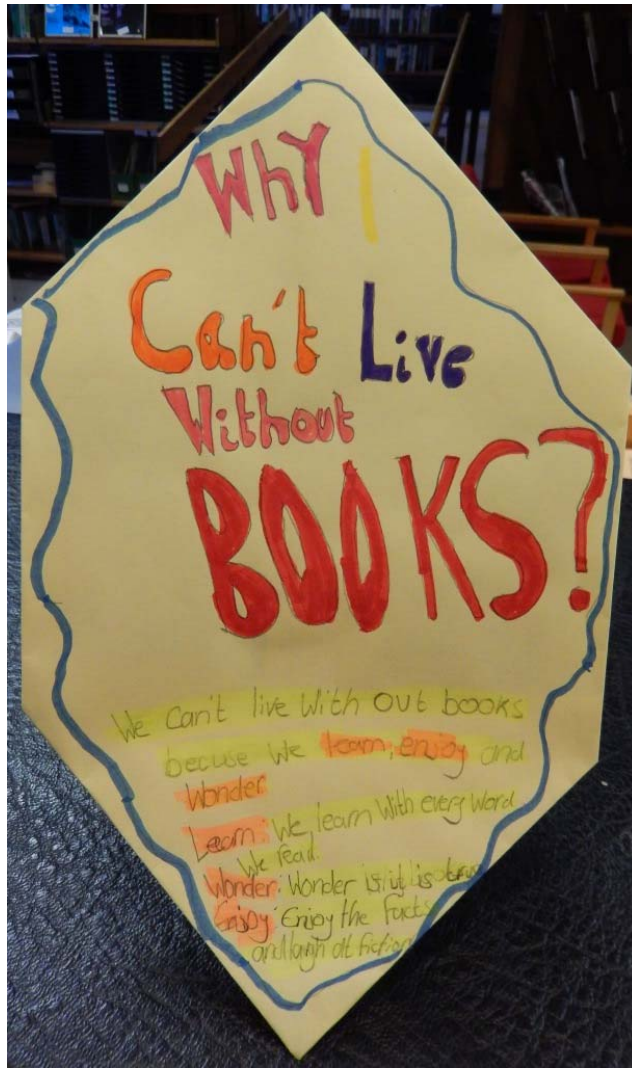

We need books for when
the power is out
your phone is dead
and the weather is bad.

But we don't need books
we have books.

We need books to fall back on when the internet fails us.

We need books to grow up with, to read and to pass on to our children.

We need books to enjoy, to fall in love with the characters we bring to life from the pages.

We need books to read, to record, to learn, to treasure, to explore, to love, to give, to experience.

And we need books to survive.

We need books to keep us educated throughout life for possible opportunities

We need books in case our Technology runs out or breaks
Battery

You can possibly ~~any~~ piece of information in ~~the~~ books, which is why we always need to have them

Imagine your life without reading, without books, newspapers, magazines or even reading a story online

Why cant we live Without Books!

Well if we wouldn't have books we wouldn't be able to read.

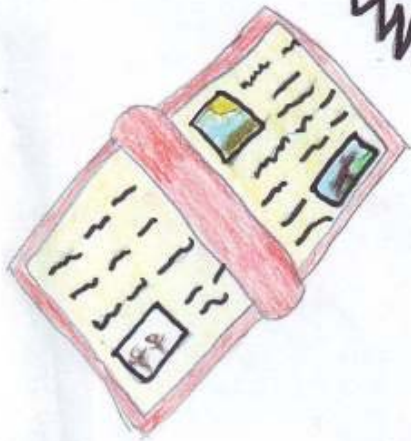

if there was no books we wouldn't be going to school

Books are very handy because you learn a lot from them sometimes if you read books you get better at them.

Some people don't like reading but books are very helpful.

The world would be empty without books. its like food

Why We Can't Live Without BOOKS!

Books are so important. Some people think that they could easily live without books but you can't. When your teacher is teaching you, they have to read books to know what to teach. So even if you don't read books they are still a huge part of your life.

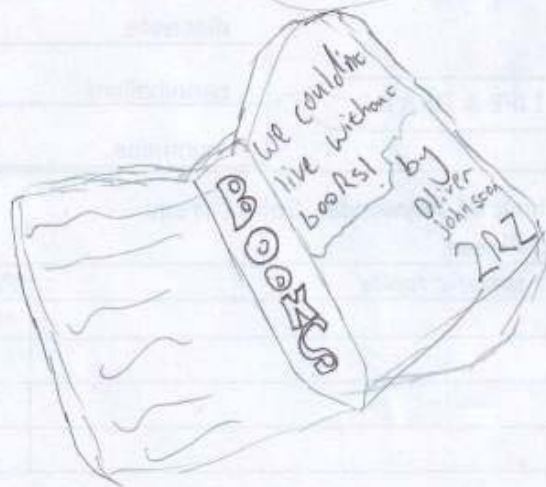

- Books are portable you can take them absolutely anywhere!
- If you were using the internet the device that you were using could run out of charge were as a book never runs out of battery.
- Books can help you relax and relieve stress.

- Some books can take you into an other place, a world of imagination.

COULD WE LIVE WITHOUT BOOKS?

We couldn't live without books for example. The Computer by Oliver J 2RZ is just a big book of everything, we need books to make things, we need books to look back on history sometimes we even need books to cook! We need books to make buildings after all books were made before the Computer. We couldn't live without books we need books for banks libraries and every other job!

Why We Can't Live Without Books

I would be lost without books because if you don't read then you won't be able to write or read. It will help you in primary school and when you go to the big school.

And if the power is out then you can read with a torch

WHY **we** **CANNOT**
live without
BOOKS???

We need books! ©

books help with education and finding out new words and what they mean.

books are a great distraction and escape. they are enjoyable to read and would be very hard to live without.

WHY DO WE NEED BOOKS?

We need books to store information on. You can store information on a computer but it can be deleted. Yeah, you can get rid of books but it's not as easy.

It's easy carrying a kindle around with you but what happens when it loses charge? You need a book.

If you're reading before you go to sleep, if you read on your kindle it used something called blue screen and it can damage your eyes and it is better if you avoid blue screens an hour before you want to go to sleep.

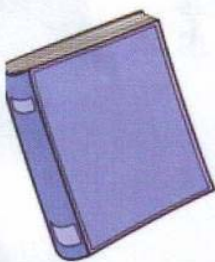

Why we can't live without books!!!

We can't live without books because you can learn more things from books than you can from Google or Wikipedia, because the internet doesn't always tell the truth, the internet has pop ups on stuff that's not relevant to what you're looking for, people tend to copy and paste more from the internet where as when you have a book you're more likely to try and put it in your own words.

More young people think the internet is always right and they think books are boring because you can't just copy and paste from them.

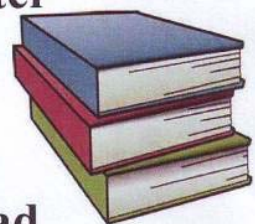

If you're on games on the internet loads of pop ups come up such as, there's one which says "click here, you have won an iPad" This is teaching kids to click on everything but they're unaware of the danger.

When you search up something on the internet the internet describes it with all these words that most kids and sometimes adults don't even understand it, if you're looking up something for a project and you put all these words in that even the teachers don't understand they ask you what it means and kids don't know, so they end up having a project that doesn't make sense and it also means that they don't understand what they're trying to talk about.

Why we can't live without books

- It is a lot cheaper to use a book rather than the internet.
- You need electricity to use a computer but books require no electricity or battery power.
- Not every country has access to the internet but nearly everyone can read books for information.

Why We Can't Live Without Books!

Books help us learn new stuff, they help you read faster and they give you a very big vocabulary. There are more advantages of having a book rather than an electronic one. Books don't run out of power after using them for a while and you don't have to plug them in to a power socket when they do. Staring at a screen for a while can give

1

you a sore head or hurt your eyes but books don't, you can read them for as long as you want. If you are doing a project at school or work and your internet doesn't work or something, books are then the only option. There is only one small disadvantage, when you are in the dark and you are wanting to read, you'll need to put a light on or something and that's not much of a problem. Books can also help to get you to sleep.

Why We Need Books

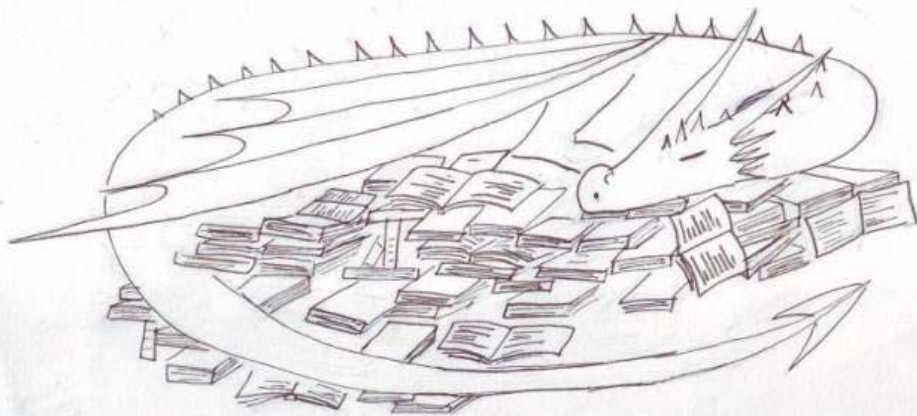

The world needs books because if there were no books there would be no internet or computers.

The world needs books because books give you time to yourself and they give you a cheaper way of information.

The world needs books because they are very handy and portable and most inventions come from books such as the computer the helicopter and the car.

BOOKS ARE THE MOST
POWERFUL TREASURE MORE
WONDEROUS THAN ALL THE
RICHES IN THE WORLD.

Why We Can't Live Without Books!

- 1 We need them to learn!
- 2 Books inspire people!
- 3 Without Books there would be no internet!
- 4 If people didn't read they wouldn't do very good in the future!
- 5 If people didn't read much

Hello
BOOKS!

Why CAN'T WE LIVE without BOOKS ?

We can't live without books because they are educational. They help us with our grammar and spelling. They also teach us new words. Some people think of them as a way of escaping real life. Another reason is for researching, Books are easier than the internet because they all have true information.

Why We Can't Live Without Books

Books have been around for years,

They give us joy, they give us tears.

They make us laugh, they make us tense,

Even some give us suspense.

Books can teach us how to spell,

They can make us better when we're unwell.

They teach us all about the past,

We make them want to last and last.

Why CANT We LIVE Without BOOKS ?

- HELPS YOU READ AND WRITE!
- THEY ARE EDUCATIONAL!
- IF THERE WAS NO INTERNET YOU CAN USE THE BOOKS!
- THEY HAVE REAL INFORMATION!
- YOU CAN RELAX!
- TAKE YOU INTO A DIFFERENT WORLD!
- THEY ARE FUN!
- YOU CAN USE THEM ANYWHERE!
- GOOD AND TRUE FACTS!
- THEY ARE GREAT FOR SCHOOL!
- THERE ARE BOOKS FOR BASICALLY EVERYTHING!

BY HALLIE GORDON

WHY BOOKS ARE IMPORTANT?

BOOKS ARE IMPORTANT BECAUSE THEY HOLD THE POWER TO INSPIRE AND TEACH PEOPLE HOW TO MAKE THE BEST OUT OF LIFE.

BUT OUR GENERATION HAVE TAKEN BOOKS FOR GRANTED WE NEED TO THINK MORE ABOUT OUR DECISIONS AND READ MORE BOOKS .

BOOKS CAN BE USED FOR MORE THINGS THAN PEOPLE THINK YOU CAN ESCAPE REALITY WITH A BOOK, YOU CAN GET INFORMATION FROM A BOOK AN YOU CAN EVEN GET INSPIRED BY A BOOK AND WHO KNOWS MAYBE YOU COULD BE THE NEXT ROALD DAHL, OR STEVEN KING.

JUST REMEMBER ONE THING FROM THIS PRESENTATION THAT A BOOK CAN CHANGE A LIFE AND A GENERATION.
