

Throwing

Sometimes it's ok to throw things like when I play with a ball, beanbag or a Frisbee at home or in school

or just throwing with friends

This is good fun and makes me feel happy

BUT

Sometimes throwing is **NOT** ok!

Throwing things can be dangerous

People can get hurt and things can get broken

This makes people feel sad, scared and cross!

I do not want to upset people so I will not throw things inside
