'Right to Education'

Committing to high-quality,
accessible learning for all.

Dunbarney Primary School Quality Improvement Plan 2025-2026

1. Helping Children Become Better Writers and Improving Attainment

We're focusing on improving writing skills in P4 and P5.

What this means for your child:

- ✓ More chances to write creatively and confidently
- ✓ Clear feedback to help them improve
- ✓ Fun and relevant writing activities in school
- ✓ Teachers working together to make writing lessons even better

2. Making Number/Maths Problems more Meaningful and Improving Attainment

We're boosting problem-solving skills in maths across all classes.

What this means for your child:

- ✓ Weekly maths challenges and celebrations across the school
- ✓ Learning how to tackle tricky numeracy/maths problems in fun ways
- ✓ Older pupils helping younger ones
- ✓ Teachers sharing ideas to make maths exciting and effective

3. Creating a Safe and Supportive School Environment

We believe that all behaviour is communicating emotion.

What this means for your child:

- ✓ Daily emotional check-ins to help children feel heard
- ✓ Staff trained to support children's emotional needs
- ✓ New ways to help children talk about their feelings
- ✓ Stronger relationships between children, staff, and families; promoting readiness to learn.

4. Working Together Across Schools

We're teaming up with other schools in our area to improve learning.

What this means for your child:

- ✓ Teachers sharing ideas and learning from each other
- ✓ Smoother transitions from primary to secondary school
- ✓ New approaches to group learning and teamwork
