Dunbarney Primary School- Quality Improvement Plan 2026-2027

This year, our improvement work is focused on helping every child become a confident digital learner, experience more active and creative learning, and understand how to improve. We will keep equity, wellbeing and our HARK values of Honesty, Ambition, Respect and Kindness at the heart of our work.

1. Digital Learning

We want children to use technology confidently, safely and purposefully to support learning across the curriculum.

What this means for your child:

- More opportunities to create, collaborate and communicate using digital tools.
- Digital skills developed progressively from P1 to P7.
- Fair access to devices and support where barriers are identified.

3. Moderation and High-Quality Learner Feedback

We will make assessment and feedback clearer and more consistent so children know how to improve.

What this means for your child:

- Teachers working together to agree standards and expectations.
- Clearer feedback on what is going well and what the next step is.
- More self-assessment and peer assessment to build learner ownership.

2. Play-Based and Creative Pedagogy

We will strengthen active, creative and child-led approaches that are right for each age and stage.

What this means for your child:

- More choice, exploration, enquiry and problem-solving in learning.
- Learning spaces and resources that encourage curiosity and independence.
- Children having a stronger voice in shaping aspects of their learning.

LMG. Curriculum Improvement Cycle

Alongside our school priorities, we will work with other local schools to strengthen curriculum progression and coherence.

What this means for your child:

- Staff engaging with national curriculum improvement developments.
- Schools sharing approaches, planning and standards.
- Clearer learning pathways and progression across stages.

Thank you for working with us to help every child at Dunbarney Primary School *'Be their Best Self'*
