

# Kenmore Primary Term 2 Newsletter December 2021

We are delighted to be able to share some highlights of our learning in this very busy term, we hope you enjoy reading our newsletter. Thanks as always to all our families for your support in these very different times, and especially to our Parent Council for helping to make our school Christmas celebrations very special! Have a wonderful Christmas, and here's to a better 2022!

**With very best wishes from all of the Team at Kenmore Primary School.**

## Primary 1-3

This term P1-P3 have had some great fun learning both indoors and out!

We were delighted to see our sessions start again with Aberfeldy Rugby Football Club and we are learning some great skills with our coach Gregor. We also had some great results when pupils choreographed their own yoga routines using moves such as the dolphin, the dog and the cat. Pupils performed for each other, demonstrating great core strength, flexibility and great listening skills.

Our Big Maths journey continues and we have learned how to sort using Venn Diagrams, using online games and challenges to solve some tricky problems. We have been finding out about weights and measures and exploring the relationships between kilograms/grams and litres/millilitres by weighing and measuring on scales and in measuring jugs.

Plastic pollution is something that affects all our lives and in Science we explored how plastic gets into the human food chain. Even though we were disappointed by covid chaos again this Christmas we still enjoyed learning all about the Christmas Story with Mrs Forsyth. We are now all looking forward to a well earned Christmas holiday and of course a special visitor sometime in the not too distant future.

#### Primary 4 – 7

This term we have been very busy with lots of new learning experiences. We started off the term by creating artwork for the GWCT competition. Hopefully, we will hear the results soon!

This term we have had lots of fun learning rugby skills with Gregor, from Aberfeldy RFC.

For outdoor learning, we used the *PictureThis* app to identify fungi in our local woodland area. We then researched the different species of fungi and created a poster display.

We have been working hard to develop our digital literacy skills this session and have been busy creating digital images of snowmen, presentations using SWAY and Powerpoint and a digital space book, for our space topic.

We have had lots of success with the Perth and Kinross Sumdog maths competitions. We came 3<sup>rd</sup> in our first competition and 5<sup>th</sup> in the second competition out of the whole of Perth and Kinross!

#### Dates for your Diary:

Thursday 6<sup>th</sup> January...Term 3 starts  
16<sup>th</sup> February...Inset Day, school closed to pupils  
17<sup>th</sup>-18<sup>th</sup> February...holidays  
Other dates to follow
