Dear Parent / Carer,

During the week beginning 26<sup>th</sup> August, pupils in Primary 1-7 took part in a wonderful week worth of Science experiences and experiments organised by Autoimmune Conditions UK. Pupils had a wonderful week learning all about how the body works through various experiments and thoroughly enjoyed their week. The school greatly appreciate being asked to be involved in this event and for the hard work of the events organisers.

As part of this work with Autoimmune Conditions UK, I am writing to highlight to you the Science Fayre they are running along with Glasgow University; Science Centre; and The University of the West of Scotland in Glenburn Community Centre on **Saturday 21<sup>st</sup> September from 11am-3pm**. This is a great opportunity to come along and learn with your children and take part in some of the workshops and experiments they completed during our Science week. It is also a **FREE** event. There will also be posters about Science and Autoimmune Conditions on display that our P4-P7 pupils have created. It is sure to be an exciting day and a great way for your child to share their learning with you.

I look forward to seeing you all there.

Yours sincerely

Craig McCrorie

Head Teacher
