

# Road Safety Information

TRAVEL AROUND BISHOPTON PRIMARY

At Bishopton our safety is important.

Following the traffic surveys we carried out , we would ask you to consider safe places to park.

Do you really **NEED** to bring the car? Could you possibly walk? Walking not only reduces congestion around the school at the busy times but also is the healthy option, for pupils and for parents

We do know that most parents are considerate and do take the safety of children very seriously. We would like to raise your awareness of the possible issues and potential dangers.

Thank you for taking the time to read and think about road safety awareness around our school.

## The Junior Road Safety Officers

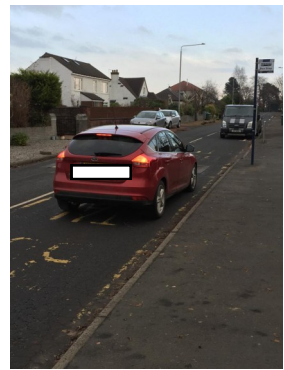

## Where **NOT** to park...

**In front of the school,**  
blocking access to other drivers, school  
buses, deliveries and affecting the safety  
of people accessing the school.

**KEEP CLEAR**

**In the Zig Zags, at the bus stop or across  
from drive ways.**

This causes congestion, stops the buses  
from stopping safely and can affect the  
safety of pupils getting on or off the  
buses or trying to get to the playground.

### **Blocking FOOTPATHS.**

This makes it difficult for pupils to cross  
the road safely and for people in  
wheelchairs or pushing prams.

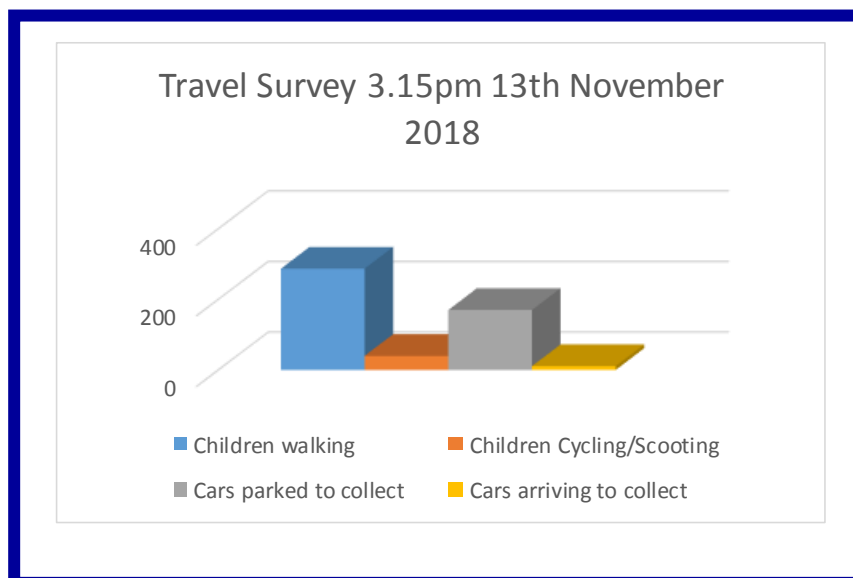

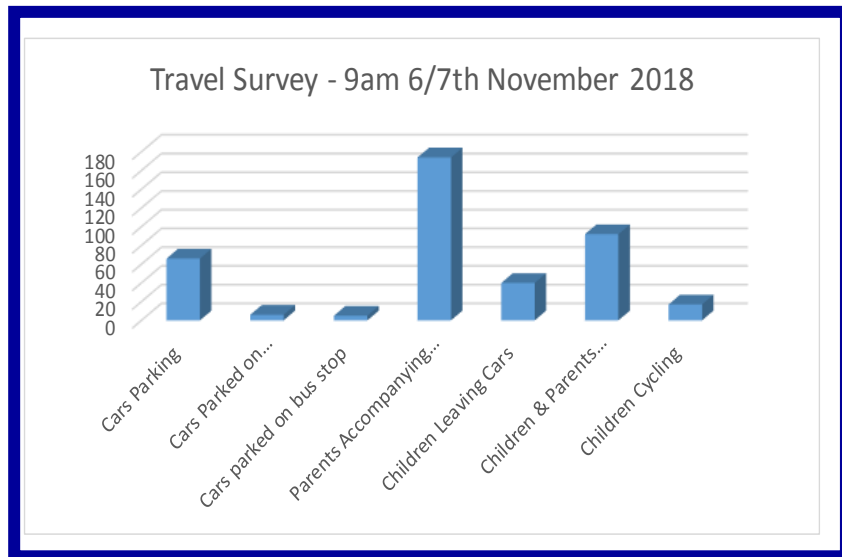

### **At the junction close to Ferry Road.**

This causes an obstruction for cars  
turning out of the junction and blocks  
the crossing into the school.

## Traffic Surveys 2018

We looked at the number of vehicles coming to the school at the start and end of the day across two days.

## **Strider**

Our Junior Road Safety Officers (JRSOs), Aimee, Daisy, Aaron, Kaitlyn and Ryan, work very hard every week gathering the data on our Living Streets, Walk to School initiative. Strider comes into school regularly to encourage us all to walk as far and as often as we can. Our JRSOs focus is health and safety whilst travelling and they take great pleasure in awarding Strider badges to the winning children every month.

A big thank you from our JRSOs in supporting road safety around our school.
