# Introduction to Seesaw

Seesaw is our main form of communication at Dargavel. It empowers students to create, reflect and share their work with their family and the class teacher. Seesaw provides a platform that allows families to keep up to date with learning and communicate with the school.

How to access Seesaw

Your child will have brought home a paper invite which includes all the joining instructions. You can download the free Seesaw family app on mobile devices or connect through the website.
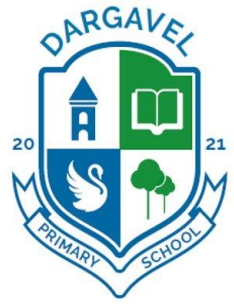

FAMILY

What will <u>Seesaw</u> be used for at Dargavel?

Key features of Seesaw family app:

- Notifications when teacher or your child adds a new piece of work or photograph.

- Like or comment on work to encourage your child.

- Message teacher directly.

- Class announcements.
