Dear Parent / Carer,

Seesaw

This term at Bushes, all classes will start using the app Seesaw to share aspects of your child's learning with you. Seesaw allows pupils and staff to upload examples of learning to a secure, personal learning journal that can only be accessed using a unique QR code (like a barcode). You can download the app and notifications via email, which prompt you to open the app and see work that your child has shared. Seesaw has been piloted in previous years and is a very popular and effective way of sharing your child's learning.

As we are developing our use of Seesaw in the classroom, there is no timescale on how often you will receive updates of your child's learning via the app.

Every pupil will be given a classroom Seesaw account to start uploading their learning. If you have any questions or concerns regarding the use of Seesaw, please contact the school office.

We look forward to sharing your child's learning with you.

Kindest Regards,

A handwritten signature in black ink, appearing to read 'Scott Bannerman'.
