

Knights and Castles

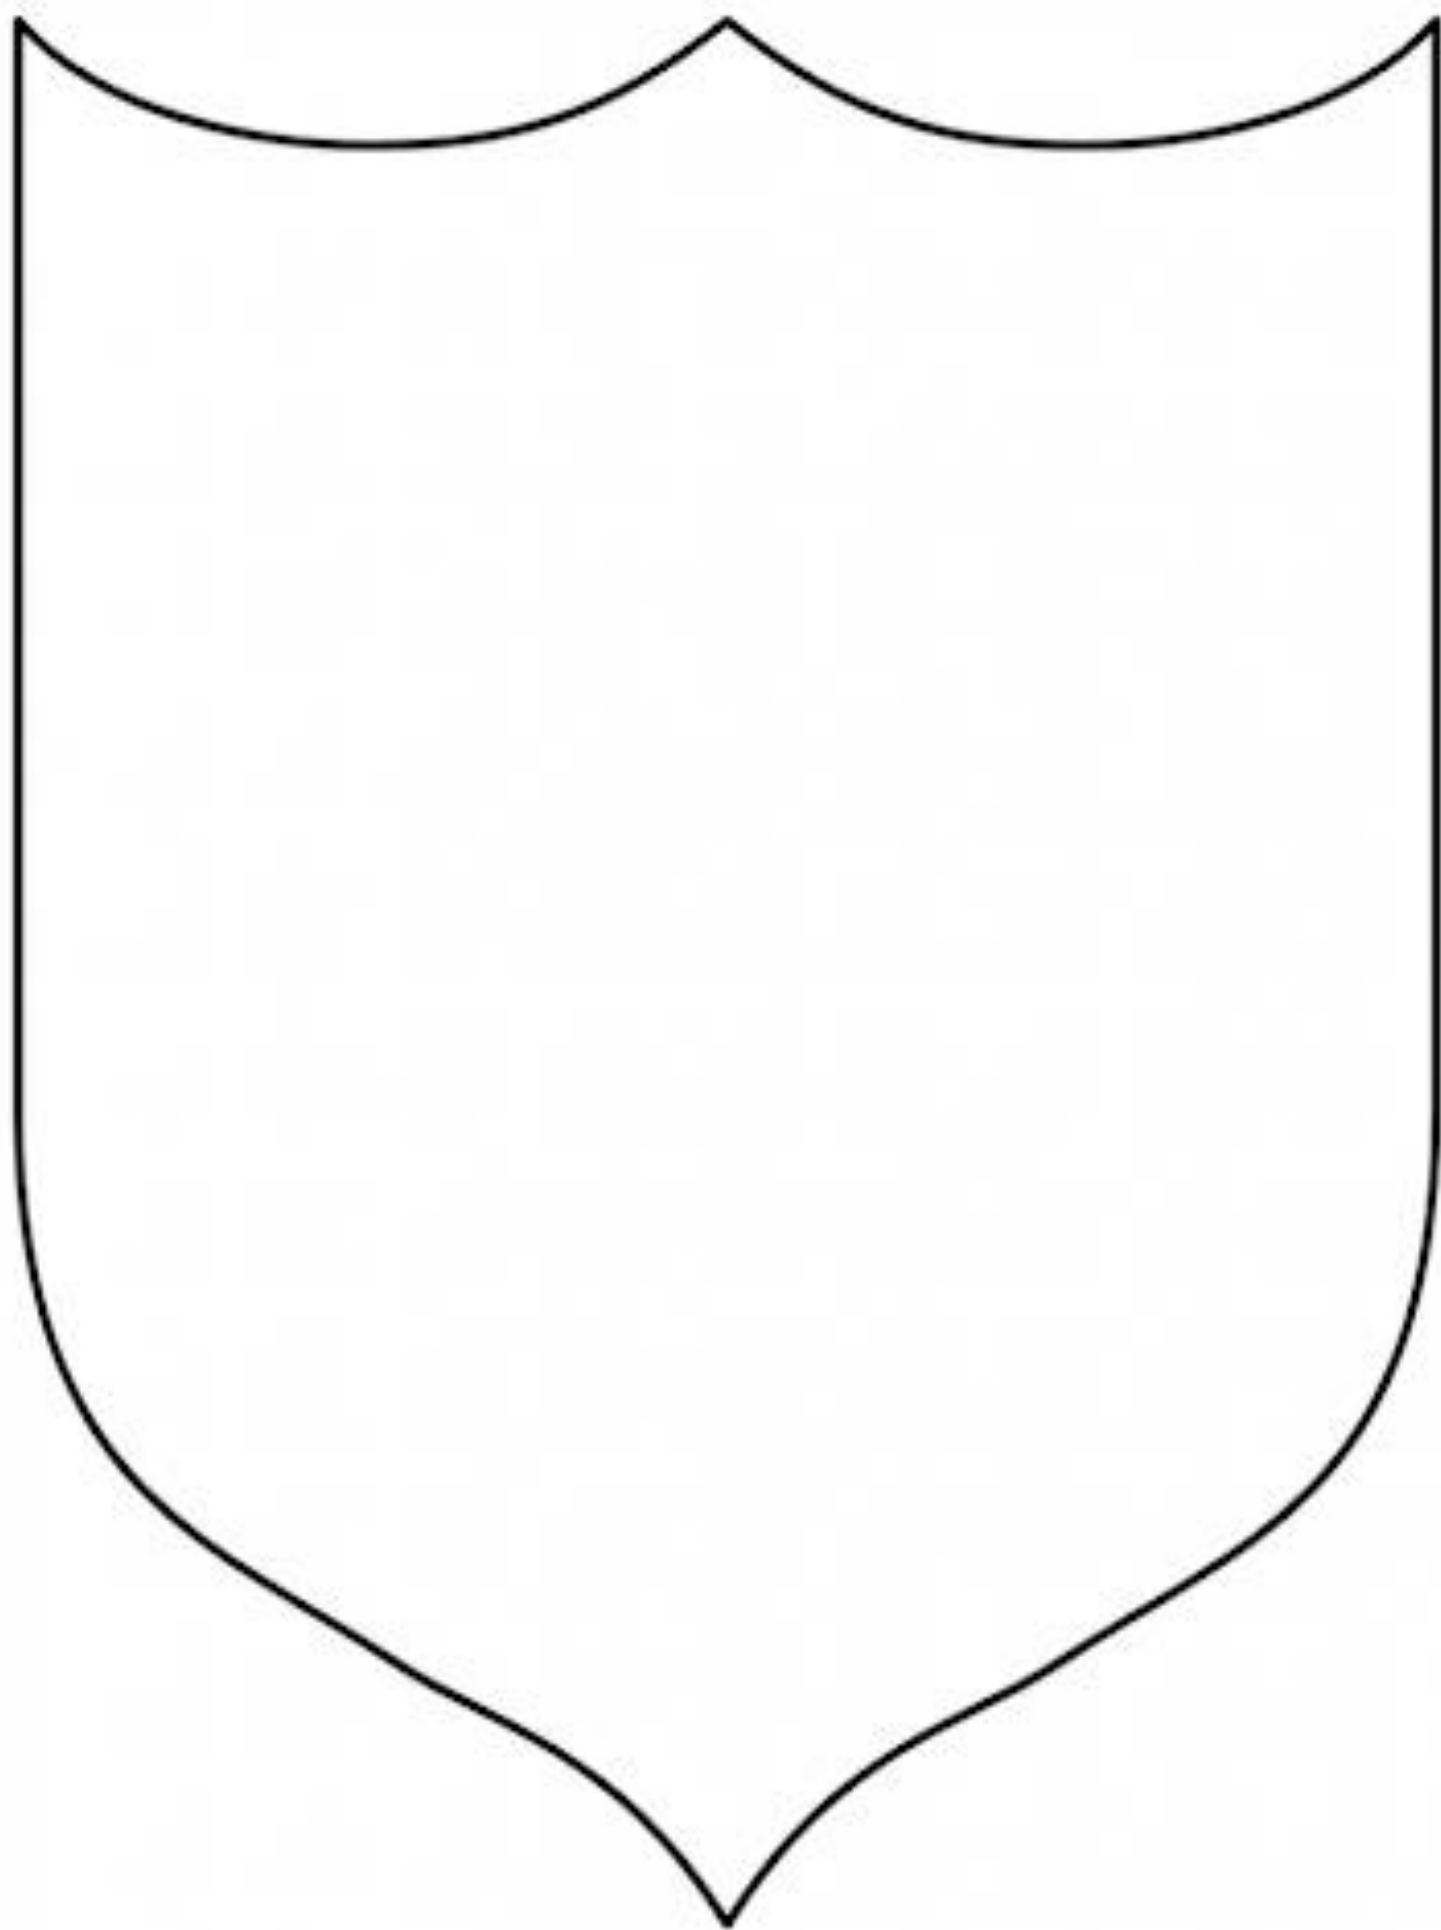

In class this term we would have started to learn about Knights and Castles but unfortunately we never got to start our exciting project!

As most of you have now finished your 'All About Me' task I thought you would like a new challenge. You can pick and choose what you would like to do but I have suggested some activities below, you might think of something even better to do and share with the class. I am so excited to see what you learn!

- Draw or write about a character who lives in a castle.
- Design and make your own castle from junk/recycling/a shoe box. You could look online at different castles and the types of rooms they might have, will you have turrets and towers?
- Paint or draw your own imaginary Fairytale land and castle.
- Write or tell someone a story all about someone who lives in a castle, what might happen to them, what do they spend their days doing?
- Create your own little puppets to make a show about life in the castle.
- Can you create a dragon to protect the castle, you could draw, paint, build or make it from things you find outside. Can you describe your dragon to someone; does it have scaly skin, or prickly horns?
- Design an outfit for a Princess, King, Queen or Knight to wear.
- Can you create a shield for your knight, maybe you could create your own coat of arms thinking about the things that are important to you!

I have attached some templates that might help with your project and each day I will post a little fact or bit of information about our topic.

There will be lots of videos shared and if you find out anything exciting or interesting please share it and I can let the class know 😊

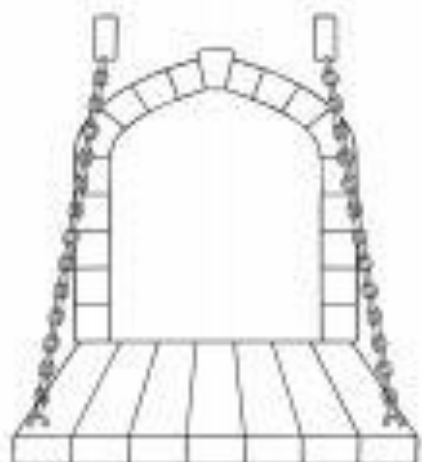

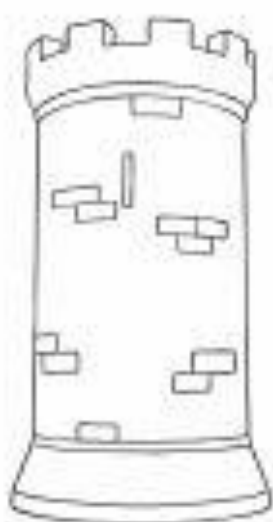

shield

knight

drawbridge

turret

castle

flags

sword

palace

Doodle some of your own fairytale creatures in to the scene above!
