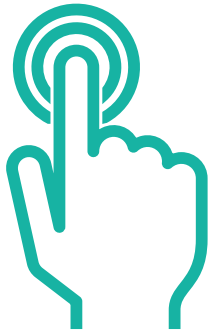
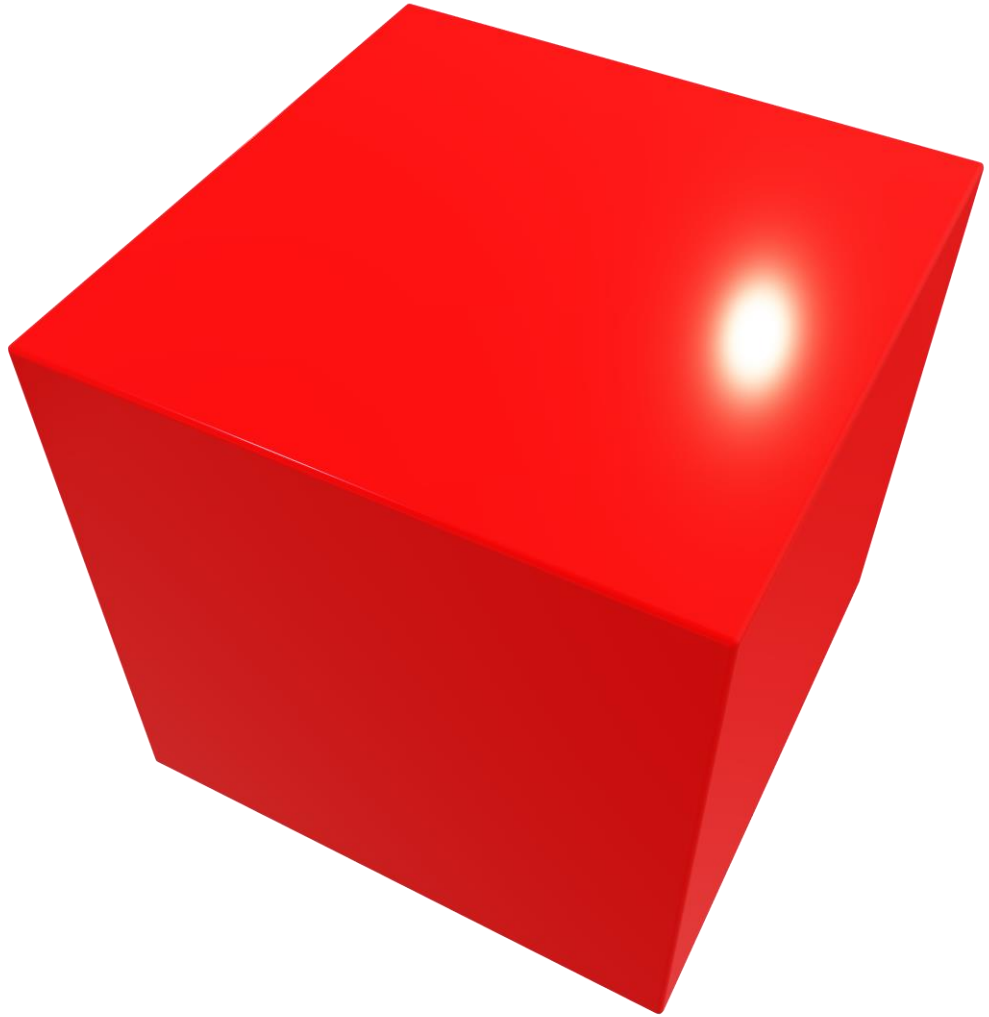
Virtual Experiences with Powerpoint in Early Years and Beyond



For Scotland's learners with Scotland's educators

Realising the ambition: Being Me

"Digital technologies provide opportunities for us to design a unique learning space for the children. Bringing resources and experiences virtually into the setting can lead learning well beyond what was originally planned."



- Select insert from the menu bar on desktop PPT
- Select the menu button on the 3D shapes option
- Identify which stock model you wish to add (or add your own)

Next steps, support and advice….

Teachers lead busy lives but digital working allows us to work flexibly anytime and any place, so we have organised the first pathways to allow you to learn independently with content organised by stage or platform. This section contains the guides to using Office 365 and Google Workspace within Glow.

Sometimes teachers want to spend more time focusing on a topic and to engage in real-time with others, so we provide courses and webinars too.

Anytime Learning by stage
