

# Multiplying

Complete the multiplications, using the grids to help you.

1.

	400	30	2	
6	2400	180	12	
$432 \times 6$			=	$\begin{array}{r} 240 \\ 180 \\ 12 \\ \hline \end{array}$

2.

$144 \times 8$			=	$\begin{array}{r} + \\ \hline \end{array}$

3.

$215 \times 9$			=	$\begin{array}{r} + \\ \hline \end{array}$

4.

$670 \times 5$			=	$\begin{array}{r} + \\ \hline \end{array}$

5.

$329 \times 7$			=	$\begin{array}{r} + \\ \hline \end{array}$

6.

$508 \times 4$			=	$\begin{array}{r} + \\ \hline \end{array}$

I can use a grid to work out multiplication calculations
