

Quick Start Guide for Parents setting up Seesaw for their children.

Parents should download the **Seesaw Class app (free)** or visit **Seesaw.me**

Then the parent should choose **I'm a Student**.

Enter the **home learning code** received from the teacher into the **Text Code box** at the bottom of the screen or scan the QR code using Seesaw's built-in QR code scanner.

Once logged in, check the **Journal** tab to see any posts that your child's teacher has sent to his/her class. The **Journal** will also contain any activities that your child has completed. Click the **Activities** tab to view any activities that your child's teacher has assigned. Click **+Add Response** to work on the activity. Students press the **green tick** to submit the activity.

If your child's teacher hasn't assigned a task within Seesaw but has asked your child to take a photo of some work they have completed at home for example, press **+Add button**. Choose which format of work you want to add.

Check the **Inbox** to see if you have any announcements from your teacher.

Students **sign out** by clicking on their name/avatar in the top left hand corner of the screen, then click the cog and then sign out.
