Children's Services

Head Teacher: Mrs Nicola McGlynn

Dear Parent,

**Growing Together Gardening Day**

As part of curriculum for excellence, our school continually strives to empower our pupils to drive change and improve their environmental awareness. Pupils benefit from opportunities to take part in the practical hands-on nature of gardening with their peers. These outdoor experiences will encourage them to become strong, active learners, gain great enjoyment from being outdoors as well as learning to work together to achieve a common community goal.

To develop our pupils' gardening skills, raise environmental awareness and improve our school grounds, all our children will take part in gardening activities on **Wednesday 22<sup>nd</sup> May 2019**. Children should wear old clothes on this day which are appropriate for our scottish weather. Each class will each have a responsibility for using the new planters which are located around our school.

Plants, compost and flowers will be purchased with money that was made from our recent School Show. If you can help on the day to support your school community please contact the school office.

We look forward to seeing our plants and flowers bloom.  
Kind regards

*J. Hunter*
