About this App and Feedback

<https://rhcg.org.uk/kids-for-families>

Helping families support their babies, children and young people to live healthy lives and reach their full potential. The KIDS for Families app and website were created by health professionals from Specialist Children's Services. They offer trusted advice and resources to support development from birth through the teenage years. You'll also find guidance on where to get help and how to support your child or young person at every stage.
