### **1. Update regarding funding for garden**

Mrs Love advised that an application to the Green Space Fund has been submitted for around £4900. If successful this will be used to fund mini football goals in the Infant playground and benches and basketball nets in the Junior/Senior playground.

We currently have £840 to fund benches, blackboards and toy storage for the Infant playground.

An application has been submitted for £9900 to The Local Area Committee based in Glenburn and Foxbar. Focus is on safety/safe play.

Mrs Love advised that Young Offenders will be helping to clear the garden area. Funding is available and could be used to renovate the area which will include, painting the pergola and fence, raising the beds and general repairing and painting.

A combined application will be submitted with Stronger Communities with a view to providing a multi-purpose pitch. Fundraising through the school will be required alongside this application.
