

Friday 26th June

Well.....Here it is. The final day of term and your last day as Primary 3 Pupils.

Everything today is very relaxed.

You have done an excellent job during 'Lockdown' and should be very proud of your achievements.

I hope you can all join me for our meeting this morning at 11:00 am

HWB

Let's get our brains and bodies energised.
I am suggesting we all take the first 30 minutes of our day to do some physical activity. See you at 9:30am

Remember to keep active at other times during the day too.

Other

We don't know where we might be able to go to this summer. But that doesn't mean we can't dream.

Here is an activity which shows you how to use paper plates and salt-dough to make a beach scene.

You could use your creative skills and create any kind of holiday scene you would like. (The recipe is there for salt dough too)

Literacy

Keeping with the theme of chocolate from Charlie and the Chocolate Factory. I thought you might like to listen to this story about chocolate cake.

Numeracy

Numeracy

Did I ever tell you I am a mathemagician?

I can make you all think of the same number!

Don't believe me.....Let's see.

Scroll down to check for more.

- Think of a number. I want you to pick a whole number between 1 and 10.
- Add 2.
- Multiply by 2.
- Subtract 2.
- Divide by 2.
- Subtract your original number.

What is the number I have made you think of?
