Subject: Twitter

Dear Parent/Carer

As a school we continue to look at ways to improve our communication with parents in relation to the life and work of the school.

Renfrewshire Council have recently encouraged schools to communicate via social media such as Twitter. The purpose of this is to convey information and news about the school and also to share children's learning. As a school we have decided to have a school Twitter account which you can access @RalstonPrimary.

This has been up and running for some time in many schools and it is a great way to communicate with parents and share some lovely pictures of children working hard in school. I know many parents enjoy receiving these updates and seeing what their children are learning about in school.

Please complete the attached slip indicating whether you give permission for your child's photograph and/or name to be used on Twitter and return to school.

Yours sincerely

Jillian McGown
Head Teacher

Ralston Primary School
