

Tone

Tone refers to the lightness or darkness of something. This could be a shade or how dark or light a colour appears. Tones are created by the way light falls on a 3D object. The parts of the object on which the light is strongest are called highlights and the darker areas are called shadows.

Learning Intention – In this homework exercise you will be using the visual element of Tone. Below is an example of a tonal chart which has been created using a variety of weights of tone. Create your own tonal chart in your sketch book. Evaluate your tonal chart after you have finished, using two stars and a wish.

Success Criteria

- I have applied the tone neatly
- I have applied a variety of tones – light, medium and dark.
