

Design- Hand washing sign

Signs are very important design products. At the moment with COVID-19 the importance of washing our hands has never been more publicised.

1. Look at the examples given
2. Invent your own sign stating the importance of hand washing

Things to consider-

Can people understand it (ask a family member)

Colour and contrast help to get something to stand out.

Should it be in a circle, square or triangle like other signs or not?

Send to SMH or gw07mcgregoreuan@glow.sch.uk
