

Self Portrait

You should produce a self portrait as part of your ongoing assessment.

You may sketch in pencil first but you must add in some tone, using shading, cross hatching or dots.

You can use a mirror, or use a photograph of yourself to complete your drawing. Draw your head and shoulders only (do not draw your full figure). Dont use a photograph with little detail or that is poor quality.

Success criteria –

Full use of the page.

Good shading that shows contrast between light and (shadows).

Good proportion and placement of features.

Different textures (skin, hair etc) are shown via different marks.
