A small number of pupils may be presented at National 3 or 4 levels. The Self in community sub context is based around what the pupils view as being issues that they would like to improve in their own local community. Pupils largely complete this unit in groups of three or four and the focus for skill development is on that of interpersonal skills. However, there is flexibility within the unit to allow identified groups of pupils to complete the unit in the sub-context of distant community (for those who are taking part in world challenge expedition etc).</p> <p><u>Learning and Teaching Approaches</u></p> <p>The majority of the unit is based around personal reflection and target setting for the future in relation to interpersonal skills and involves pupil working as part of a small group for the majority of the unit, Pupils also have the opportunity to engage with a number of internal and external partnerships. Learning and teaching approaches include;</p> <ul style="list-style-type: none"> • Stating learning intentions and success criteria. • Co-operative learning applications and approaches applied during group work. • Self assessment and target setting embedded and basis for planned activities. <p><u>Assessment</u></p> <p>Assessment takes place on an ongoing basis in relation to what the pupil can say, write, make and do. Teacher observations form a large part of the assessment process, but it is equally important that pupils develop their self-awareness and ability to recognise the development of their interpersonal skills realistically. Pupils are issued workbooks which contain templates to record achievement that will demonstrate all outcomes and assessment standards contained in the SQA Award Unit Specification. Pupils are required to keep evidence of the tasks undertaken and this should be confirmed by the teacher.</p> <p>Further information can be found in the Evidence requirements section on page 3 & 4 of the unit specification.</p>	<p><u>Curricular area of HWB;</u></p> <ul style="list-style-type: none"> • Develop self-awareness and Interpersonal Skills • Personal Learning Planning • Self assessment and review • Co-operation and negotiation skills • Evaluate personal effectiveness 	<p><u>Skills for Learning</u></p> <ul style="list-style-type: none"> • Help plan next steps in learning in relation interpersonal skills • Use appropriate language (SWOT) for self evaluation • Make informed choices and decisions about their future learning • Target setting • Monitoring progress and making amendments to a plan of work as necessary 	<p><u>Skills for Life & Work</u></p> <ul style="list-style-type: none"> • Communicate effectively when giving and receiving feedback • Recognise when they will do their best by working with others and on their own • Agree and take responsibility for their agreed tasks • 1.3 Listening and talking • 3.1 personal learning • Thinking skills - 5.2 Understanding & 5.3 Applying

<p>Depth</p> <p>Pupils demonstrate higher order thinking skills as they self assess, plan and carry out their group project. Pupils are heavily involved in working collegiately and will be able to build on the information that other group members have researched in relation to their chosen topic within the sub-context of self in community.</p>	<p>Final review of interpersonal skills and evaluation of progress made throughout the duration of the topic. Plan for future development</p>											
<p>Personalisation and Choice</p> <p>This unit responds to the individual views of pupils in what they perceive as issues within their local community. In addition, pupils are also provided with choice in the format that they choose to present the solution researched and their role within the carrying out stage (outcome 2) of the project.</p>	<p>Independently complete personal planned tasks and assess the development of interpersonal skills when working with others</p>											
<p>Coherence</p> <p>Pupils are responsible for planning extended activities that will draw different strands of their learning together. They reflect what they have learned about their own interpersonal skills when working with others and opportunities for future development</p>	<p>Construct a range of tasks for individual completion following self assessment and negotiation with peers</p>											
<p>Relevance</p> <p>The entire unit is relevant to pupils in relation to the topic that as a group they choose to research, the tasks that they will complete in relation to their own interpersonal skills and the format of presenting their solution to the community group that they have selected.</p>	<p>Use information generated from self assessment to construct a SWOT analysis in relation to interpersonal skills</p>											
	<p>Identify, discuss and provide feedback on individual and others interpersonal skills. Discussion and consensus of local community issues</p>
