

Home Learning for P2

In St. Charles' Primary School the home learning tasks have been designed to provide challenge for children but also allow them to make connections with real life contexts. We aim to offer parents and families fun ways to extend their child's learning opportunities beyond the classroom by: -

- Providing additional practice of skills learned at school
- Informing parents of what is being taught
- Encouraging family learning opportunities

In P2 Home Learning tasks are provided in the format of a weekly grid. The grid contains both Literacy and Numeracy tasks. A new home learning grid will be issued every week on **SeeSaw** and will be varied, meaningful and interesting.

All children will be issued with a Home Learning jotter to record their work. This jotter should be returned to school on a Friday to allow children to share what they have recorded.

The Home Learning grid will provide children with tasks linked to the following;

- Phonics/Spelling tasks
- Reading related tasks
- Grammar related tasks
- Family learning activities
- Tricky words (Fry's Common Word List)
- Numeracy tasks (written or oral)
- Mental maths challenges
- Mathematics tasks (written or oral)

After October mid-term break children will be issued a challenge book. Children should also continue to regularly read a book for enjoyment.

Additional home learning tasks related to Religious Education, Topic, Health & Well-being and solo talks may be provided throughout the year, where appropriate.
