

At St Fergus'
Primary School,
we want to...

...get better at
talking about and
reflecting on our
**skills and
achievements**

Why are we doing this?

We practice and apply our skills in our learning, but we are not confident talking about which skills we have been using.

Becoming more confident at this will help us when we are older, especially when we are looking for jobs in the workforce.

What will you see?

We will learn language that will help us identify and talk about our skills.

Our Pupil Groups will have a focus on skills, giving us the chance to practice our new language.

Primary 5 - 7 will profile skills and achievements using an online platform.

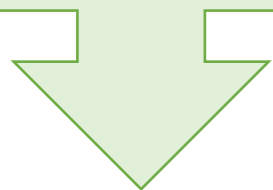

How will we know if we improve?

Our learning in class will be focussed on the skills we are using and not just the context we are learning in.

We will be able to reflect on the links between our achievements and the skills we applied in these.

We will display and talk about our skills during Family Learning events.

At St Fergus'
Primary School,
we want to...

**...raise attainment
in Literacy and
Numeracy**

Why are we doing this?

It is important that we can all read, write and work with numbers so that we can use these skills in other areas of our lives.

Working with numbers helps us to develop our Problem-Solving skills.

What will you see?

Some children will receive targeted support for reading, writing and numeracy.

Our jotter work will clearly show what we are learning, and our wall displays will show off our good work.

We will be more confident when doing new things.

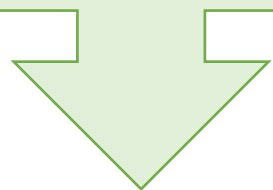

How will we know if we improve?

More children across the school will achieve the nationally expected standards in Literacy and Numeracy.

Our skills in problem solving, questioning and recording will show a deeper understanding of what we have learned, and we will be able to transfer this across the curriculum.

At St Fergus'
Primary School,
we want to...

...learn more about
our **Rights** and
how these relate
to our **Faith**

Why are we doing this?

Our voice is important. It is the law that we learn about our rights under the UNCRC and that these rights are in action. It is everyone's job to look after us and make us safe.

Learning about our rights will help us with our Laudato Si journey, helping us to build a more equal world.

What will you see?

We will establish Pupil Leadership Groups for Rights Respecting Schools and Laudato Si and action plans will be created and worked through. We will use our voice to enact change and share this in assemblies.

All classes will have a class charter linked to the UNCRC.

How will we know if we improve?

We will achieve our Bronze Rights Respecting School Award.

We will display our rights around the school and talk about them regularly.

We will be kind to others and uphold their rights.
