

# P5 Term in a Nutshell -Term 2

## Literacy

In Literacy, we continued to work on the Write Stuff and sentence stacking skills to develop our vocabulary in imaginative writing. In functional writing, we created reports on COP26, looking at the causes, effects and solutions of global warming. We started to look at Blooms Taxonomy to develop our thinking when answering questions.

## Numeracy

In Numeracy, we have focused on number operations and different strategies for mental calculations. We have also looked at calculating and drawing angles and the properties of triangles.

## HWB

We were introduced to a new resource called Treehouse this term, which helps develop our skills in leadership, mindset, wellbeing and resilience. In PE, we have been working on gymnastics—we have worked on mat work, large apparatus and even a bit of Pilates!

## IDL

Our Interdisciplinary Learning has focused on COP26 and how Global Warming has affected our planet. We have found this very interesting to learn about and we know that we all have our part to play to help look after our world.
