

CHILDRENS QUOTES:

Michael—the highlight of this term was doing the mini Olympic topic.
Zac—I enjoyed doing gymnastics for PE this term.
Maya—I enjoyed the St. Benedict's maths teacher coming in and teaching us.
Leathan—I loved learning about the Jacobites this term.

Primary 7 Term In A Nutshell

CHILDRENS QUOTES:

Grace L— I have enjoyed learning to draw pie charts in maths.
Maggie—I enjoyed making a two wheeled car and painting sunflowers.
Molly—I enjoyed our 'Frida Kahlo' and 'Sunflower' art we did this term.

Term 3 has been busy! World Book Day was great fun and we were thrilled to receive our special Leavers

Interdisciplinary learning

This term we learned about The Jacobite Rebellion of 1745. We researched and found facts about the important events that took place before and during the Rebellion and the key people that were involved. Learning about the type of weapons they used in battles and comparing them to the Redcoats was fascinating and helped us to appreciate how the Jacobites lost the Battle of Culloden. Learning about Scottish clans and the Massacre of Glencoe was interesting and helped to understand more about how Scottish people interacted with each other during that time. We were able to create a Clan Coat of Arms and develop our writing skills during this topic. We created a recount of the Battle of Culloden from the perspective of a Jacobite soldier showing techniques such as fronted adverbials and intensifying our words.

Numeracy

P7 worked hard to develop their skills with Mr Canning, Head of Maths at St. Benedict's High School. He was extremely impressed with the children's attitude, behaviour and motivation to learn about multiplying negative numbers

Furthermore, P7 have been developing their skills in information handling: using their skills with fractions to figure out how to draw pie charts.

Health & Well-being

P7 are also the Travel Committee and they have been working hard to encourage families to choose a more active way to travel to school. Even if it is one day per week, then it will make a difference! The class have enjoyed getting outside to take part in running drills recently!

In health lessons, the class have been learning about media and peer pressure and how they influence peoples decisions. The class have been developing ways to try and manage peer pressure so that they can ensure they make positive choices.
