

# P.6 Term in a Nutshell

## Health & Wellbeing

In PE in Term 1, we have been focusing on Gymnastics. We learned how to perform skills on the floor and on apparatus. We also created our own routines with a partner and in groups.

In BUDS we have been learned all about Growth

Mindset. We took part in many challenges and ensured we were using positive language towards them.

## Literacy

Our class novel this term was Holes written by Louis Sachar. We delved right into this book where we used the skills of prediction, inference and demonstrated our understanding of the text.

In writing, we focused on description. We learned how to structure a wishing story and over numerous weeks we have written our very own wishing story with a focus on Pirates using figurative language.

## Numeracy

We have learned how to round to the nearest 100,000 and beyond. We have also been working on our times tables recall through song. Most recently we have learned about measurement and how to convert the numbers into different units of measure.

## Music

In music we have learned all about rhythm. We can name all the different notes and how many beats they are worth. We composed our own rhythms and joined them together to make a whole class beat.

## Our thoughts...

"I have really enjoyed talking about my ideas through my writing."  
Joseph

"I liked doing our Banksy artwork. I enjoyed making the brick walls and loved making my own version of one of Banksy's artworks."  
Niamh

"I have enjoyed reading Holes and liked the story about his Great, Great Grandfather." Eve

"I have enjoyed learning all about Climate Change and Natural Disasters. I also love hearing about all of the different Rivers of the Day." Caolan

"I loved learning about Rock 'n' Roll music and where it came from and how it started. My favourite singer was Chuck Berry." Oscar
