## parentsportal.scot

Produced by Communications and Strategy, South Lanarkshire Council  
for the Improvement Service and SEEMiS. 048275/Apr19

Enabling and  
creating a digital  
relationship between  
parents, pupils  
and schools

Operated by

**is.**  
improvement **service**

Powered by

 **SEEMiS** Group  
Enabling Digital  
Information for Education

**parentsporta<sup>ll</sup>.scot** will provide parents with access to a growing suite of online services now and developing in the future. The portal will include information about the child's education, transactions, placing requests, holidays, reports, absences, parent evenings, grants, school trips, events and much more.

**parentsporta<sup>ll</sup>.scot** will make things easier for parents and carers through more efficient communication and comprehensive information about their child's progress. Using a system that can be accessed securely and is simple to use. A better relationship with schools and the home, while giving teachers more time for education and less administration.

**parentsporta<sup>ll</sup>.scot** is also being developed to support strategic outcomes and national priorities such as raising attainment and parental engagement. Reducing poverty and inequality, while expanding on early learning and childcare provision. It will provide clear information to support these outcomes and the inspection process.

**Developed to improve the way in which schools engage with parents securely online**

**Replacing the traditional school bag run** and paper processes with direct digital communications via a single sign on approach

**Providing convenience to parents** to view information, update details and transact at a time that suits them

**Helping to drive an increase** in attainment levels and parental engagement

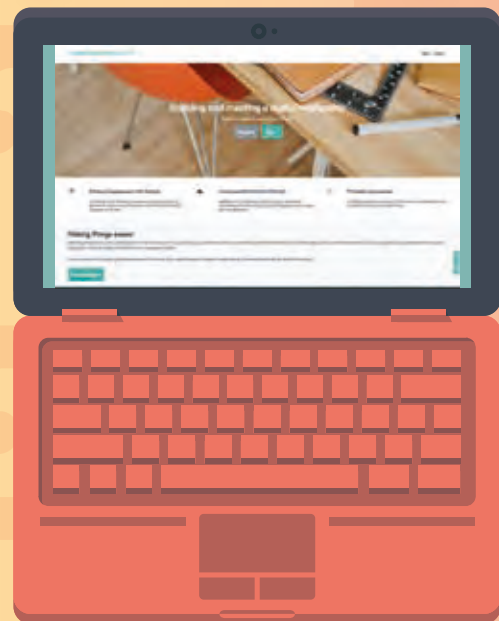

**Support broader strategic outcomes** such as tackling poverty and inequality

**To be aligned with** the expansion of Early Learning and Childcare in Scotland

the **30,000** placing requests  
submitted annually

**Links to...**  
Parentzone Scotland,  
school website and  
social media,  
council website

**simple process**  
all applications in one place,  
easy to complete and return

Operated by

Powered by

Responsible for the design, build, operation and ongoing support of **parentsportal.scot**

Responsible for provisioning the educational-related data to flow to and from **parentsportal.scot**

**parentsportal.scot** is a partnership between the **Improvement Service** and **SEEMiS** with the joint vision of enabling and creating a digital relationship between parents, pupils and schools.

Digital services will be designed, developed and deployed in a phased approach in consultation with parents, local authorities and third party suppliers.
