Duty of Candour Report

April 2021 - April 2022

The new Duty of Candour came into effect on 1 April 2018. It affects all health, social work and care services except childminders. It means that services must take specific steps to carry out their Duty of Candour when a serious adverse event happens. They will need to let the people affected know, offer to meet with them, and apologise. This is an important part of being open with people who experience care, and also learning from things that go wrong.

Starting from April 2019, care services and social work services must, by law, produce a short annual report showing the learning from their Duty of Candour incidents that year, publish it, and notify us that it has been published. That means the annual report services produce will cover the period April 2021 to April 2022. This short report describes how Alloway Early Years Centre has operated the Duty of Candour during the time between 1 April 2021 and 31 March 2022.

Where something has happened that triggers the Duty of Candour, our staff report this to the DHT who has responsibility for ensuring that the Duty of Candour procedure is followed. The DHT records the incident and reports as necessary to both the HT (Manager of the Centre) and The Care Inspectorate. When an incident has happened, the DHT and HT review the situation and share this with all staff. This allows everyone involved to review what happened and identifies changes for the future. Where parents or children are affected by the Duty of Candour, will provide welfare support as necessary.
