

Primary 4 Term 3 Learning Journey

Literacy

In Term 3 we will be reading the novel "The Wild Robot" by Peter Brown. We will be using the story to help us explore character and setting which will be the focus of our imaginative stories.

In listening and talking we will be learning how to perform a Scots poem and we will have the opportunity to participate in the poetry recital competition at the end of the month!

Numeracy and mathematics

In numeracy we will develop our understanding of money by paying for items and calculating change in our shop. We will learn about coins and notes and will explore different methods of paying for goods digitally.

We will explore telling the time using both 12 and 24 hour notation.

Health and wellbeing

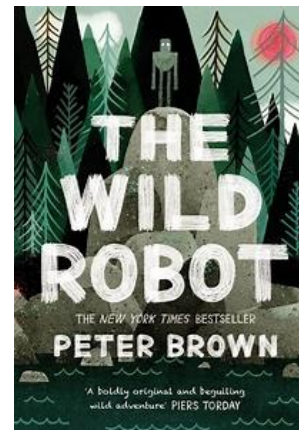

We are beginning 2025 by looking at healthy eating and how to enjoy a balanced diet.

In PE we will be using apparatus to link movements and create short gymnastics sequences.

RME

We are learning about the Jewish and Islamic religious texts, the Torah and the Qur'an. We will be comparing these special religious texts to the Bible and will discuss how these books are important to religious people around the world.

Term
3

Expressive Arts

We are looking forward to learning about the Scottish artist Charles Rennie Mackintosh as part of our Scottish whole school theme. We will learn about his famous buildings and rose motif. We will also be learning about the artistic style of pointillism.

Towards the end of term 3 we will begin to start planning this year's school show which involves singing, drama and playing instruments. We cannot wait to choose our three performances and get planning!

Science

We are learning about the properties of different materials.

This topic links to our class novel, "The Wild Robot".

Interdisciplinary Learning

To start 2024 with a bang we are celebrating Scottish fortnight, where we will learn about Alexander Fleming, Charles Rennie Macintosh and about the importance of young people using their voice for change in Scotland (Article 12 – I have the right to have my views listened to and respected).

We will then be moving on to our enterprise project where we will work together to create a small business – keep your eyes peeled on Learning Journals for more information!

Technologies

We have borrowed the Marty Robots from the digital lending library. We are looking forward to learning how to program these robots to carry out different activities.
