

# Balancing Equations

I can balance equations.

a.  $3 + \square = \square - 6$

---

b.  $\square + 4 = 9 - \square$

---

c.  $7 - \square = 3 + \square$

---

d.  $9 - \square = \square + 2$

---

e.  $\square + 4 = 2 + \square$

---

f.  $\square - 7 = 5 - \square$

---

g.  $7 - \square = \square + 1$

---

h.  $\square + 2 = \square - 6$

i.  $\square + 5 = \square - 3$

---

j.  $7 + \square = \square + 3$

---

k.  $\square + 3 = 8 - \square$

---

l.  $\square - 6 = 8 - \square$

---

m.  $9 - \square = 7 - \square$

---

n.  $1 + \square = \square + 4$

---

o.  $6 - \square = 3 + \square$

---

p.  $\square + 2 = 7 - \square$

## Challenge

Write some of your own for a friend. Make sure you can find an answer.
