

Target Splat Halloween Game

Follow these two horrid recipes to make some wickedly gruesome Halloween slime for a fun filled game! Mwah, ha, ha, haaa!

Magic Slime

You will need:

Cornflour

A mixing bowl

A little water

Green food colouring

Method:

Simply add a little water to cornflour and mix really well until you get a slippery slime that can be crunched up into a ball but flows like a liquid when you let it go. Add green food colouring to make it look like authentic Halloween slime.

Target Splat!!

This is a game for the most ghoulish monsters. Make a target outside in the garden on a large piece of card. Each player has to stand at an agreed distance and try to hit the target with their slime. The person who gets their slime closest to the target is the winner.

Sticky, Oozy Slime

You will need:

170g clear glue

170g bottle of green glitter glue

1 cup liquid starch (more if too sticky).

Method:

Pour the liquid starch into a mixing bowl. Add the bottle of clear glue and stir until blended. Add the bottle of glitter glue to the mixture and stir until all the ingredients are blended. Rub starch on your hands and knead the mixture to make a ball. If the mixture is too sticky, add more starch and if the mixture is too runny, add more glue.
