

LI: To recognise odd and even numbers in a 2 or 3 digit number.

Is My Number Odd or Even?

To complete this activity, you are going to need 50 cubes or counters.

We are always told that even numbers can be shared into two even groups.

Make each of the following numbers using your cubes or counters and see if you can split them into two equal groups.

Colour the even numbers on the chart blue.

1	2	3	4	5	6	7	8	9	10
11	12	13	14	15	16	17	18	19	20
21	22	23	24	25	26	27	28	29	30
31	32	33	34	35	36	37	38	39	40
41	42	43	44	45	46	47	48	49	50
51	52	53	54	55	56	57	58	59	60
61	62	63	64	65	66	67	68	69	70
71	72	73	74	75	76	77	78	79	80
81	82	83	84	85	86	87	88	89	90
91	92	93	94	95	96	97	98	99	100

What did you notice about the two groups?

What did you notice about the odd numbers?

I know that an even number ends with either __ , __ , __ , __ or __ .

I know that an odd number ends with either __ , __ , __ , __ , or __ .

Colour in the **even** numbers:

216	217	218	219	220	221	222	223	224	225
-----	-----	-----	-----	-----	-----	-----	-----	-----	-----

Colour in the **odd** numbers:

455	456	457	458	459	460	461	462	463	464
-----	-----	-----	-----	-----	-----	-----	-----	-----	-----

Put a circle around the even numbers:

97	70	14	8
22	3	66	
141	238	94
