

Children & Covid Symptoms

Should your child arrive at the Centre coughing, we will ask that you take them home. We will always err on the side of caution. As you can appreciate, we not only have a duty of care for other children but to our staff as well.

Should your child have a temperature, and or cough please do not send them to the Centre, even if you think it is only a cold. Seek advice from NHS 24.

If your child does get tested for Covid, and the result is negative we will require a copy of the result to be emailed to the Centre: Cherrytree.mail@south-ayrshire.gov.uk

Masks & Social Distancing

-

Can we please take this opportunity to remind parents that masks must be worn when in the Centre grounds and we must adhere to social distancing regulations.

Thank you for your co-operation
