How can I help parents to use Twinkl independently?
We have a number of really helpful guides, designed for parents, for different areas of the curriculum. You can direct parents towards our dedicated Parents' Hub which contains hundreds of educational activities designed for use at home. Or, browse this area yourself and hand-pick individual resources to share.
For primary-aged children, take a look at our 5-11 area. Again, this was created with parents in mind so it's filled with guides and information about what children should be learning in each year group, for each curriculum area.
