

Why we need your support

“We’ve come a long way in raising awareness about autism but there's still more to be done. We need the public’s support to raise vital funds to continue [running campaigns](#) and influencing government decision making, training and sharing knowledge with [professionals working with autistic people](#), and so much more – and that’s where you come in.

- £5 could pay for a recently diagnosed adult to call our helpline for support and advice
 - £40 could pay for a parent of an autistic child to have an hour long telephone consultation with our Education Rights Service
 - £200 could fund our Parent to Parent service for a day.”
