P1M

Highlights

We enjoyed getting our Book Bug Packs. They were full of books and activities.

Outdoor leaning learning day was a success with us taking part in different aspects of the curriculum outside.

Our Learning- Health and Wellbeing

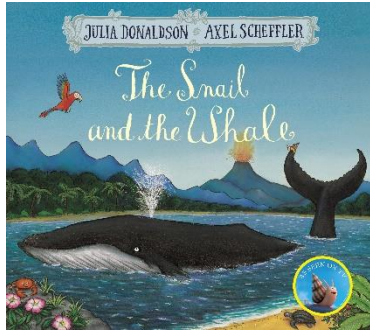

We are looking after ourselves by brushing our teeth in school on a daily basis. We learned what to do in an emergency and the different emergency services. As part of soft start we do a daily check in of how we are feeling that morning and use our zones of regulation to express and manage our emotions.

Numeracy- We can talk about fractions. How they are part of a whole. We can split and share objects equally in half. We can add 2 quantities together using part, part, whole and writing the calculations for this.

Literacy

Our shared reading story has been *The Snail and the Whale* by Julia Donaldson. Ask me about it. I can talk about character, plot and setting.

Hot Chocolate people for November have been;

Corey, Charlie, Lyall who enjoy having their hot chocolate with Mrs Thomson.

We are excited to see who will be next to get it.

Upcoming events

Our new interdisciplinary topic is Cold Climates. As part of Social Studies we will look at these places on a map and compare the climate with Scotland. We will learn about the animals and people who live there and how they survive.

For Science we look at states of matter for water solids, liquids and gases.

P1 will be practising singing songs for the upcoming nativity. More information to follow.

Thanks Miss Melrose
