**WHAT HAVE  
WE BEEN  
LEARNING  
ABOUT?**

---

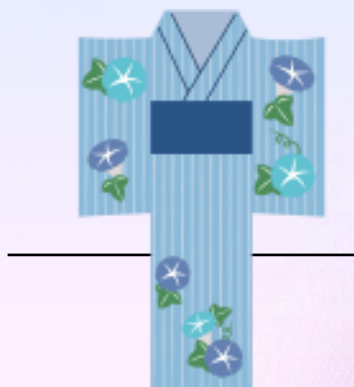

We had a PEEP session with Elaine where our families joined us. we sang songs, used the lycra and the parachute.

---

We have been exploring different cultures and some of the clothing that people wear in different countries. We made our own clothing using different pieces of material and showed them to our friends.

We used a map to look at where different countries were and all the different flags. We then used Google maps to look to see if we could find our house.

We went on a walk in our local community to look at all the features of the environment. When we came back, we then drew our own map and added different things on to it including roads, trees and shops.

We have been working hard with our counting, subitising, matching and sorting. We used the large dominoes to match numbers and find the correct number and colour of items. We also used the grocery cans to count out the correct number of fruit and veg to put in the tins.

We have been exploring different ways to design and construct models using the large wooden blocks.

We used a variety of different items and made sure we were risk assessing our play making sure we kept safe, by wearing our safety hats and not building too high

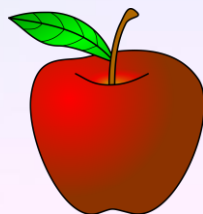

We have been doing a lot of mixing experiences. We mixed paint colours together and tried to guess which colours they would make. We also mixed some flour, water, food colouring and oil together to make playdough, and then used some loose autumn parts to make models

We have been enjoying healthy snacks and helping to make snack such as pizza and apple muffins.

Book bug has been joining in with us when we have been practicing our songs and nursery rhymes.

We have been using the song bag to choose what song we were going to be singing next.
