

Happy Easter

What can we say? It has been a challenging time for everyone but we are so grateful to you for your support. You are doing such a wonderful job of making your children's home-learning so meaningful and full of fun. They are developing their curiosity and learning so much about the world around them. Thank you for your updates, pictures and videos. They really do make us smile. It is so heart-warming to see our little P1s so happy. We truly have amazing parents and we cannot thank you enough.

We hope you have a lovely, relaxing Easter holiday and we are already looking forward to hearing all about it.

Take care and stay safe.

Much love,

Miss Audino & Mrs P-B

Easter Activities

There are lots of fun activities and Easter crafts to do in the holidays. Here are a few of our favourites:

Easter Egg Bunting - <https://pin.it/2EPEoLk>

Easter Egg Art - <https://pin.it/5EpcIVl>

Easter Cards - <https://pin.it/7D056em>

Handprint Chick Puppets - <https://pin.it/2XgFx9Q>

Easter Bonnet - <https://youtu.be/L36zry-FHdE>

Easter Egg Catapult - <https://littlebinsforlittlehands.com/easter-catapult-stem-activity-kids/>

Backyard Scavenger Hunt

 - ☁ Find something purple.
 - ☁ Find a bug.

Rainbow Scavenger Hunt

RAINBOW SCAVENGER HUNT

- primary playground
- ☁ Find something red.
 - ☁ Find something yellow.
 - ☁ Find something orange.
 - ☁ Find something green.
 - ☁ Find something blue.
 - ☁ Find something purple.
 - ☁ Name a fruit that is red.
 - ☁ Name an animal that is yellow.
 - ☁ Name a vegetable that is orange.
 - ☁ Name a plant that is green.
 - ☁ Name a flower that is purple.
 - ☁ Name something outside that is blue.

Grow A Rainbow

How to Grow a Rainbow

You will need:

- Kitchen roll/paper towel
- Felt tip pens
- Two small bowls of water
- Paper clip
- Thread

1. Cut your kitchen roll into the shape of a rainbow.
2. Colour a rainbow with felt tips about 2 cm up on both sides.
3. Attach your paper clip to the top and tie a piece of thread to it. This will give you something to hold your rainbow with.
4. Fill each small container with water.
5. Hold your rainbow with the ends slightly submerged in the water then watch your rainbow grow!

THE SCIENCE

A brief introduction to 'capillary action'! Water molecules like to stick to things - including themselves. Sticking to things is called *adhesion* and sticking to itself is called *cohesion*. The fibres in kitchen roll make lots of little holes. Water is 'sucked' through the holes because of adhesion (liking to stick to other things) and cohesion (liking to stick to itself) means the rest of the water follows. The water pressure will eventually slow down and the pressure of gravity will mean it stops moving.

@MrsBpriSTEM

Have fun! ☺
