Top Study Tips

What are your top tips for success in this subject?

For Modern Studies your best approach is to study a little often. Being successful in Modern Studies is a little like approaching a jigsaw.

Take your time to understand and sort out all the pieces before you try and put it all together. Sometimes you will need to look at a section for a while before it will finally click into place.

A great approach is to use the section / question guide at the start of your workbook and allocate a section a week to your study plans.

Finally practice your answers out loud. If you can tell someone the answer then your ready to write about it.
