# AUTUMN 23

## Topic

Our new topic as a school, is Oceans. The EYC and Primary 1 will be working together, at early level, as part of this project. You may already have guessed we started with a Pirate theme! As part of this topic we will be exploring things that float and sink for Science and doing some Pirate role play and drama.

In numeracy we are continuing the pirate theme with the 10 Little Pirates book, counting and recognizing numbers 1-10. We will also be using the interactive whiteboard to do some underwater counting to help find the treasure!

## Literacy

In literacy we are looking for letters we recognize and trying to find our own names in amongst the new name tags.

## Health and Wellbeing

This term we will be focusing on lots of Health and Wellbeing activities to ensure our new starts Hope and Axel settle in well and feel part of the school.
